PROSPEROUS LIFE INSURANCE AGENCY

West Virginia Agency Has Most Pro ductive Year in History, and Prospects Are Good.

Among the largest and oldest life insurance companies in the United States, the Union Central of Cincinnati occupies a most prominent position. For a number of years it has been noted for its high interest earnings and low mortality rate, and while its business of late years has increased greatly, it atill maintains its old standards. Last year was un questionably the best in its history, for the agents produced a larger amount of new business than ever before, \$47,618,486, and the gain in insurance in force, \$25,479,528, also made a new record. It will be noticed that the gain is considerably over one-half of the amount insued, which indicates a choicest class of business. An analysis of the statement shows that the company now possesses ansets of \$32,623,618, of which no less than \$70,894,185 is represented by real estate mortgage loans. It has a surplus of \$4,987,648 in addition to special funds and dividends apportioned of \$12,788,619. Premium receipts for the year were \$11,912,978, bolicy holders were paid \$3,706,016, the income saved was \$6,779,447, and the insurance in force is now \$347,939,304. The policy holders of this company are supplied with most liberal forms of contract and are paying a very low not successful past five years in the history confidence in the country.
